

Solar Panel Mono 100W

INTRODUCTION

MONO module Assembled with PERC cells, the configuration of the modules offers the advantages of higher power output, cells temperature- dependent performance, reduced shading effect on the energy generation, lower risk of hot spot, as well as enhanced tolerance for mechanical loading.

Higher Durability

The multi-busbar design can decrease the risk of the cell micro- cracks and fingers broken.

PID Resistant

Tested in accordance to the standard IEC 62804, our PV modules have demonstrated resistance against PID (Potential Induced Degradation), which translates to security for your investment.

High Power Density

High conversion efficiency and more power output persquare meter, by lower series resistance and improved light harvesting.

Bigger Cells with better performance

A slight increase of the size of our cells, Boosts the performance of the newest modules by six percent on average.

First-class Quality Assurance

- 10-year warranty for material and technology
- 25-year linear power output warranty

Comprehensive Certificates

- IEC61215, IEC61730
- ISO9001:2015 Quality management systems
- ISO14001:2015 Environmental management systems
- ISO45001:2018 Occupational health and safety management systems
