Company Introduction

Jiangxi Fangda Tech Co., Ltd. is a specialized manufacturer of steel and fiberglass doors with a wealth of experience since 2002. Our annual sales have achieved significant growth year after year. We cater to various global markets, including North, Middle, and South America, the Middle East, West Africa, Australia, Europe, and other regions.

Fangda's steel and fiberglass doors are designed for both residential and commercial purposes and find extensive use in homes, apartments, hospitals, offices, schools, and hotels.

Fangda's strengths lie in offering competitive prices, superior services, stable product quality, and ensuring on-time delivery. We also provide both OEM and ODM services to meet diverse customer needs.

Satisfying customer needs is always our core goal.

Our company has a professional technical team with mature experience, and has been focusing on the research and development of various doors since 2002.

The company's technical team is dedicated to learning and innovating, harvesting a large number of patents.

The company's R&D is closely integrated with production and promote each other. Sample center is under developing jointly with our customers to promote the development of products and exchange learning research.

Fiberglass Door Features

Fiberglass entry doors are valued for durability, resisting denting, splitting, cracking and warping.

Our fiberglass doors feature:

Full length composite top and bottom rails protect the door for a longer-lasting entryway.

Full length laminated veneer lumber (LVL) runs from the top to the bottom of the locking and hinge stiles to provide structural integrity and strength.

All of our fiberglass doors come with a Limited Lifetime Warranty.

Limited lifetime coverage against defects in material and workmanship for fiberglass door slabs.

- 1 Injected polyurethane foam core, our door provides up to four times the insulating R-value of wood.
- 2 Durable, reinforced, long-term performance fiberglass skins keep the door from the moisture and humidity affections.
- 3 LVL stiles with composite edge.

Our fiberglass doors come in stainable oak, mahogany, fir woodgrain textured finishes, and paintable smooth surface.

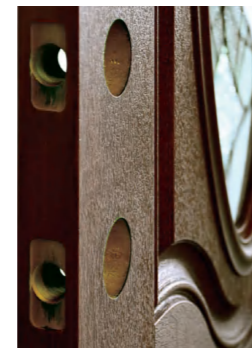

Note: Colors may vary from an actual application due to fluctuations in the printing process of this catalog.

Fiberglass Door System Components

Door components consist of all products needed to hang our fiberglass entry doors. All products are available in a variety of specifications and sizes.

Offering frame components include Jambs, Mulls, Brick Mould and Astragal. These components are finger-joints or optional PVC materials.

Jambs Materials

Grained PVC or Finger-jointed Wood Jambs

Available jamb widths: 4-9/16", 5-1/4", 6-9/16", 7-1/4" and so on, also can be customized.

PVC jamb, woodgrain oak finishes. Available with pre-painted and stained.

Primed finger-jointed wood jambs are ready to paint and required regular maintenance over the life of the door.

Weatherstrip

Foam compression weatherstrip helps seal out drafts.

Mulls

One piece mulls give the strength required for continuous sidelite units. Primed finger-joint or optional PVC mull systems, available with pre-painted and stained.

Astragle

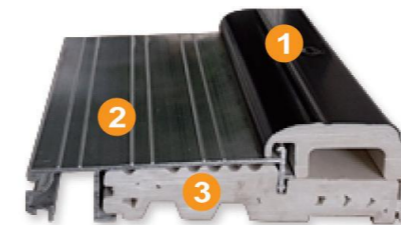

Stainable PVC astragle to match fiberglass doors that is reversible for right or left hand doors. Optional primed finger-joint available with pre-painted.

Bottom Sweep

Aluminum drip cap with U-shape vinyl door bottom sweep. Optional colors: Mill, Bronze, Brass. PVC material is available.

Composite Sills

Aluminum alloy sill composite substrate.

- 1 Adjustable sill cover, composite material
- 2 Durable anodized sill coating
- 3 Composite substrate

Optional Colors: Mill, Bronze

Ball-Bearing Hinges

Ball bearing radius corners mortise hinge, finish options: Mill, Bronze

Finish Color Options

Brick Mould

Optional Finger Jointed Wood or PVC

Exterior

Primed finger-jointed brick molds are ready to paint and required regular maintenance over the life of the door.

PVC brickmold, woodgrain oak finish.

Available with pre-painted and stained.

Note: Colors may vary from an actual application due to fluctuations in the printing process of this catalog.
