01 ABOUT US

PIO-SHIP | PIO SHIP SYSTEM CO., LTD.

Pio Ship System Co., Ltd. (Japan) is a company established in Japan by Pio Ship Group headquartered in Singapore, focusing on ship system integration and international trade services. PIO-SHIP Group has subsidiaries (branches) in countries and regions such as Singapore, Japan, the United States, Europe, the Philippines, Indonesia, etc. It has a global service network in the field of ship and maritime affairs with extensive resources and experience, providing global customers with ship design, system integration, and complete shipyard equipment services.

In 2024, FUJI established a strategic partnership with Pio Ship System to explore international markets. Pio Ship System (Japan) will serve as FUJI's international business division, assuming full responsibility for overseas market expansion and exclusively marketing FUJI Grinding Wheel products in the future.

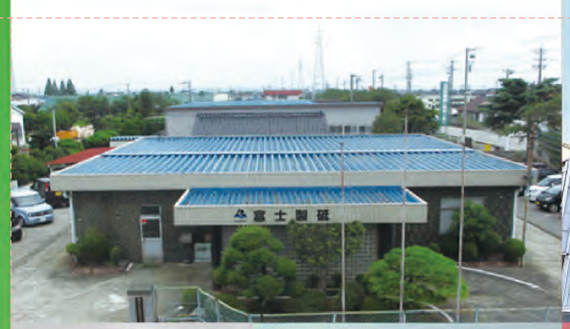
As a leading supplier of abrasives and grinding solutions for over 70 years, we are committed to providing "Products Well-Liked by the World", look forward to the opportunity to meet your metal fabrication needs, and we believe our unparalleled cutting-off discs, grinding wheels, and power tools will satisfy the diverse demands of customers across various industries worldwide.

Toyama Factory

Tokyo Showroom

Osaka Showroom

All Fuji products adhere to Japanese standards, ensuring exceptional safety, efficiency, and durability.



FUJI Group

Established in 1956

Nagano Factory

富士製砥株式会社 Kosoku | FUJI GRINDING WHEEL MFG CO., LTD.

Since its foundation in 1953, **FUJI GRINDING WHEEL** has been leading in the abrasive industry in Japan for over half a century, specializing in the production and sale of grinding and cutting wheels, as well as the development of related equipment, including Japan's first angle grinder in 1955.

In the past 70 years, FUJI has consistently focused on safety and quality enhancement, providing high-quality products to a diverse range of customers, from DIY family user to professionals in various industries. Our specially designed products offer unparalleled durability and ensure maximum productivity, cost-effectiveness, and safety for grinding and cutting applications. Their superior performance has been universally recognized and praised in Japan, earning us a strong reputation in the abrasive tools industry.

The First Japan's Angle Grinder

However, our ambitions extend beyond national borders. We aim to establish a global brand and provide our extensive range of cutting, grinding, and metal abrasive solutions to customers worldwide. Looking forward to the opportunity of meeting your abrasive requirements in a mutually beneficial partnership.

Worldwide usage of FUJI products

FUJI manufactures high quality products in Japan and also in China.
This high quality is also well recognized by the world, and the products are widely used in Asia, U.S. and Europe.

03 PRODUCT INTRODUCTION

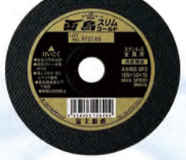
Cut-off Wheels

Double Reinforced Type Cut off Wheels

Application
For metal : general steel, thin plates, fine bars,pipes, aluminum etc.

Super Raicho

Raicho Slim Gold



Raicho Slim

Super Raicho Series

Super Tsurugi

Special Depressed Center Type Cut off Wheels

Application
For metal : general steel, thin plates, fine bars,pipes, aluminum etc.

Shirasagi 1mm

Shirasagi

FIO-SHIP

Standard Series Cut off Wheels

Kiremono

Application
Stainless pipe, stainless plate, angle iron, bars, lining tube

Tsurugi

Application
General steel pipes, angle iron, bars, channel steel.

EX-Tsurugi

Application
General steel pipes, angle iron, bars, channel steel.

Hakusan

Application
Stainless steel, heavy steel: bars, square steel

Rafuton

Application
General steel stainless steel: pipes, angle iron, bars, channel steel.

By Application series Cut off Wheels

For Large Diameter (A T)

Application
General steel: pipes, angle iron, bars, channel steel

For High Speed Rotation (A · GC-Type)

For Engine Cutter

Application
A · Iron, steel, cast iron. stainless steel.
GC · Stone

Ultra Thin Type Cut off Wheels

F-Cut (Roll goods)

F-Cut2 (Press goods)

Compatible models	Corresponding size
FS-B6	150 ~ 160×0.5 ~ 1.0×254 150 to 160×0.5 ~ 1.0×254
FS-B7E	180×0.5 ~ 1.0×254 180×0.5 to 1.0×254
FS-B8E	205×0.8 ~ 1.5×254 205×0.8 to 1.5×254
FS-B9E	255×1.0 ~ 1.5×3175 255×1.0 to 1.5×3175
FS-B10E	255×1.0 ~ 1.5×3175 255×1.0 to 1.5×3175
FS-B30E	255×1.0 ~ 1.5×254(3175) 255×1.0 to 1.5×254(3175)

Cermet Tipped Saw

For dustproof cutter Sakura K Type

Application

Angle steel, wire duct, channel steel, metal wallboard, deck plate, round/angle pipe, aluminium sash, lining steel tube

For dustproof cutter Sakura S Type For stainless steel

Application

Angle steel, wire duct, channel steel, metal wallboard, deck plate, round/angle pipe, aluminium sash, lining steel tube

Low Speed Tipped Saw Sakura F Type/Gold Sakura

Application

various steel such as angle steel, tube, channel steel, conduit pipes and tubes etc. metal siding etc.

For Low Speed Tipped Saw Sakura S Type

Application

Stainless,angle steels,tube,channel steel,etc

For High Speed Tipped Saw Sakura 165KT Super Sakura 165KA

Application

For metal For stainless steel

For High Speed Tipped Saw Super Sakura 305FH

Very effective in cutting at 50×50×6mm angle iron for 1000 times

Application

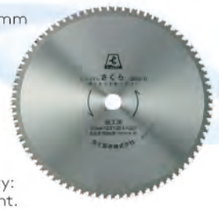
For metal

Super Sakura 305SHS

Significant improvement on durability: tooth with ceramic coating treatment.

Application

For stainless steel



For High Speed Tipped Saw Sakura 310FH

Application

For metal

For High Speed Tipped Saw Sakura 310FHU

Application

For sheet iron

Super Sakura 305AH

Application

For aluminum, metal

Dry Type Kosoku

Application

For metal For Stainless steel
For aluminum

For 100mm Angle Grinder Sakura100A · U Sakura100Z

Application

A · U · Iron, stainless steel
Z · Aluminium

For Rechargeable Cutter Sakura J · JA Type

Application

Iron, stainless steel : wire duct, angle steel,bolt,round/angle pipe lining steel tube, deck plate

Tsubaki

Application

Iron, stainless steel: angle, wire duct, channel steel, metal wallboard, deck plate, aluminium sash, round/angle pipe,lining steel tube etc.

Ultra Hard Tipped Saw

Kiku

Application

Angle, wire duct, channel steel, metal wallboard, deck plate, aluminium sash, round/angle pipe, lining steel tube etc.

Botan

Application

Angle, wire duct, channel steel, metal wallboard, deck plate, aluminium sash, round/angle pipe, lining steel tube etc.

Diamond Cutter

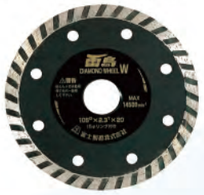
Raicho Diamond

Application

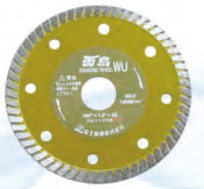
Excellent performance especially on general tile hard tile.

105S (Segment Type)

105W (Wave Type)



105WU (Thin Wave Type)



Metal Saw

FH(Black)

Application

For General steel

FT(Gold)

Application

Stainless steel, alloy steel, special steel, etc.

Kosoku Cold Saw-I

Application

Stainless steel, alloy steel, special steel, etc.

Grinding

Depressed Center Wheels

Super F- Ⅱ

Application
General steel, cast iron

Super Z

Application
General steel, cast iron, Stainless steel

Super W

Application
Stainless steel, special steel

For High Speed Rotation

Application
Super F- Ⅱ · General steel, cast iron
Super Z · Special steel, stainless steel

Super F- Ⅱ (stone)

Application
Block, brick, concrete, tile ext.

Resinox ZA

Kosoku

Application
All-round grinding wheel with special abrasive (granular zirconia) that can be used for all types of work materials.

Resinox

Kosoku

Application
AWA · Regularcarbonsteel(generalstructural steelSS400, others)
WA · Stainless steel, tool steel, alloy steel, mill scale removal

Resinox PA

Kosoku

Application
General steel, cast iron

Resinox HZ24L

Kosoku

Application
Rail, cast iron, general steel, stainless steel.

FIO-SHIP

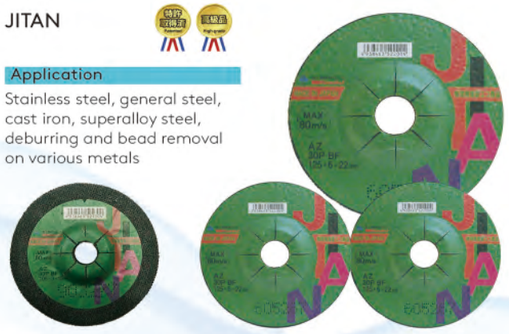
New Product

NATTOKU

Application
Stainless steel, general steel, cast iron, superalloy steel, deburring and bead removal on various metals

JITAN

Application
Stainless steel, general steel, cast iron, superalloy steel, deburring and bead removal on various metals



High Quality Grinding Wheels

Super Nozomi

Application
Stainless steel, general steel, cast iron, superalloy steel, deburring and bead removal on various metals

Eco Wheels

Eco Wheel F-1

Application
General steel, cast iron
