Our Renewable Products
Your Green Life Resource

CSP Holding Group is dedicating to create the most cost effective automation equipments and renewable products more than 30 years in China.
Our products range are including solar thermal products, solar power system, water heater automatic production line, roll forming line, polyurethane foaming machine and line, LPG cylinder automatic production line, Laser welding and cutting machines, CNC punching and solutions, hydraulic cylinder, transformers. Right now, we have global service centers and local offices in order to offer fast and professional service for our customers locally such as Europe, India, Latin America and so on.

Full Range of Solar Thermal Products by CSP Group

CSP Holding Group is a professional manufacturer of solar thermal products in China. CSP Group has fully automatic production line and more than 30 years experience. Our products range from solar vacuum tube, solar water heater, solar collector, solar cooker to accessories of solar water heater and solar collector. Our products have been exported to over 20 countries, such as USA, Mexico, India, Vietnam, Uzbekistan, Tajikistan, Brazil, Argentina, Middle-East and Africa. We are looking forward to the cooperation with partners worldwide!
